1 Identification of substance

- **Product details**
- **Trade name:** DYNAFLEX® G7660-9
- **Article number:** 20223
- **Application of the substance / the preparation** Thermoplastic Elastomer
- **Manufacturer/Supplier:**
  GLS Corporation
  833 Ridgeview Drive
  McHenry, IL 60050
  USA
  GLS Thermoplastic Alloys(Suzhou) Co Ltd
  77, Shenggang Street
  SIP, Suzhou
  Suzhou 215021
- **Information department:** Environment protection department.

2 Composition/Data on components

- **Chemical characterization**
- **Description:** Mixture of the substances listed below with nonhazardous additions.
- **Dangerous components:**
  - 8042-47-5 Mineral Oil
  - 1317-65-3 Calcium Carbonate
    Limestone
  - 66070-58-4 Styrene-Ethylene/Butylene-Styrene Block Copolymer

3 Hazards identification

- **Hazard description:** Not applicable.
- **Information pertaining to particular dangers for man and environment:**
  The product does not have to be labelled due to the calculation procedure of international guidelines.
- **Classification system:**
  The classification was made according to the latest editions of international substances lists, and expanded upon from company and literature data.
- **NFPA ratings (scale 0 - 4)**
  - Health = 1
  - Fire = 1
  - Reactivity = 0
- **HMIS-ratings (scale 0 - 4)**
  - Health = 0
  - Fire = 1
  - Reactivity = 0

4 First aid measures

- **General information:** No special measures required.
Material Safety Data Sheet
acc. to ISO/DIS 11014

Printing date 11/17/2006
Reviewed on 11/17/2006

Trade name: DYNAFLEX® G7660-9

- After inhalation: Supply fresh air; consult doctor in case of complaints.
- After skin contact: Generally the product does not irritate the skin.
- After eye contact: Rinse opened eye for several minutes under running water.
- After swallowing: If symptoms persist consult doctor.

5 Fire fighting measures

- Suitable extinguishing agents:
  CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
- Protective equipment: Wear self-contained respiratory protective device.
- Additional information
  Material will not burn unless preheated. Treat as solid that can burn. Molded parts generally burn slowly with a low smoke density and flaming drips. Under certain conditions can burn with a high smoke density.

6 Accidental release measures

- Person-related safety precautions: Not required.
- Measures for environmental protection: Do not allow to enter sewers/surface or ground water.
- Measures for cleaning/collecting: Ensure adequate ventilation.
- Additional information: No dangerous substances are released.

7 Handling and storage

- Handling:
  - Information for safe handling: No special measures required.
- Information about protection against explosions and fires: Protect against electrostatic charges.

- Storage:
  - Requirements to be met by storerooms and receptacles: No special requirements.
  - Information about storage in one common storage facility:
    Store away from oxidizing agents.
    Do not store together with oxidizing and acidic materials.
    Product has a tendency to accumulate static charge during transport, handling and processing. Reducing the velocity of transport will reduce charging. Static charge buildup can be a potential fire hazard when used in presence of volatile or flammable mixtures.
  - Further information about storage conditions: None.

8 Exposure controls and personal protection

- Additional information about design of technical systems: No further data; see item 7.
- Components with limit values that require monitoring at the workplace:

  8042-47-5 Mineral Oil

· Additional information: The lists that were valid during the creation were used as basis.

· Personal protective equipment:
· General protective and hygienic measures: Do not inhale dust / smoke / mist.
· Breathing equipment:
In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use respiratory protective device that is independent of circulating air.
· Protection of hands:
The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.
Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.
Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation
· Material of gloves
The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.
· Penetration time of glove material
The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.
· Eye protection: Not required.

9 Physical and chemical properties

· General Information

| Form:      | Solid            |
| Color:     | Black            |
| Odor:      | Characteristic   |

· Change in condition

| Melting point/Melting range: | Undetermined. |
| Boiling point/Boiling range: | Undetermined. |

· Flash point: Not applicable.

· Auto igniting: Product is not selfigniting.

· Danger of explosion: Product does not present an explosion hazard.

· Density at 20°C (68°F): 1.18 g/cm³ (ASTM D792)

· Solubility in / Miscibility with Water: Insoluble.

(Contd. on page 4)
10 Stability and reactivity

- Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- Dangerous reactions: No dangerous reactions known.
- Dangerous products of decomposition:
  - Carbon monoxide and carbon dioxide
  - Aldehyde
  - Irritant gases/vapors

11 Toxicological information

- Acute toxicity:
- Primary irritant effect:
  - on the skin: No irritant effect.
  - on the eye: No irritating effect.
- Sensitization: No sensitizing effects known.
- Additional toxicological information:
  The product is not subject to classification according to internally approved calculation methods for preparations:
  When used and handled according to specifications, the product does not have any harmful effects according to our experience and the information provided to us.

12 Ecological information

- Information about elimination (persistence and degradability):
  This product is according to previous experiences inert and non-degradable.
- General notes:
  At present there are no ecotoxicological assessments.
  The product does not contain organically bounded halogens (AOX-free).
  The product does not contain organic complexing agents.
  Water hazard class 1 (Self-assessment): slightly hazardous for water
  Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

13 Disposal considerations

- Product:
- Recommendation:
  Contact waste processors for recycling information.
  Can be reused without reprocessing.
  Smaller quantities can be disposed of with household waste.
- Uncleaned packagings:
- Recommendation: Disposal must be made according to official regulations.
14 Transport information

- DOT regulations:
- Hazard class: -

- Land transport ADR/RID (cross-border):
  - ADR/RID class: -

- Maritime transport IMDG:
  - IMDG Class: -
  - Marine pollutant: No

- Air transport ICAO-TI and IATA-DGR:
  - ICAO/IATA Class: -

15 Regulations

- Sara
  - Section 355 (extremely hazardous substances):
    None of the ingredient is listed.
  - Section 313 (Specific toxic chemical listings):
    None of the ingredients is listed.
  - TSCA (Toxic Substances Control Act):
    All ingredients are listed.

- Proposition 65
  - Chemicals known to cause cancer:
    None of the ingredients is listed.

- Cancerogenity categories
  - EPA (Environmental Protection Agency)
    None of the ingredients is listed.
  - IARC (International Agency for Research on Cancer)
    1333-86-4 Carbon black 2B
  - NTP (National Toxicology Program)
    None of the ingredients is listed.
  - TLV (Threshold Limit Value established by ACGIH)
    1333-86-4 Carbon black A4
  - NIOSH-Ca (National Institute for Occupational Safety and Health)
    1333-86-4 Carbon black
  - OSHA-Ca (Occupational Safety & Health Administration)
    None of the ingredients is listed.

- Product related hazard informations:
  Observe the general safety regulations when handling chemicals.
  The product is not subject to identification regulations according to directives on hazardous materials.

- Safety phrases:
  Keep away from oxidising agents and acidic substances.
  Do not breathe smoke.
  Take precautionary measures against static discharges.
16 Other information

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.
