1. Product and Company Identification

Material name: Coarse buffing compound
Version #: 01
Issue date: 01-10-2013
Revision date: -
Supersedes date: -
CAS #: Mixture
Product code: 315
Product use: Buffing compound.
Manufacturer/Supplier: TR Industries
11022 Vulcan Street
South Gate, CA 90280-0893 US
Telephone: (562) 923-5438
Emergency CHEMTREC: (800) 424-9300
CHEMTREC International: 00 1-703-527-3887

2. Hazards Identification

Physical state: Liquid.
Appearance: White liquid.
Emergency overview: DANGER! Flammable liquid and vapor. May be ignited by heat, sparks or flames. Causes skin and eye burns. Harmful if inhaled or swallowed. Mist or vapor irritating to eyes and respiratory tract. Cancer hazard. Prolonged exposure may cause chronic effects.
OSHA regulatory status: This product is considered hazardous under 29 CFR 1910.1200 (Hazard Communication).
Potential health effects:
Routes of exposure: Inhalation. Ingestion. Skin contact. Eye contact.
Eyes: Causes eye burns. Risk of corneal damage.
Skin: Causes skin burns.
Inhalation: Harmful if inhaled. Irritating to respiratory system. Prolonged inhalation may be harmful. May cause cancer by inhalation.
Ingestion: Harmful if swallowed. Irritating. May cause nausea, stomach pain and vomiting. Aspiration of this product may cause a pneumonia-like reaction of lung tissue.
Chronic effects: Crystalline silica has been classified by IARC as a known human carcinogen. Repeated or prolonged breathing of high levels of crystalline silica can cause silicosis.
Potential environmental effects: Toxic to aquatic organisms. May cause long-term adverse effects in the aquatic environment.

3. Composition / Information on Ingredients

<table>

Composition comments: All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.
4. First Aid Measures

First aid procedures

Eye contact
Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.

Skin contact
Immediately flush with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Get medical attention. Wash clothing separately before reuse. Destroy or thoroughly clean contaminated shoes.

Inhalation
Move to fresh air. If breathing is difficult, give oxygen. Get medical attention, if needed.

Ingestion
Rinse mouth thoroughly. Do not induce vomiting. If vomiting occurs, keep head low so that stomach content does not get into the lungs. Never give anything by mouth to a victim who is unconscious or is having convulsions. Get medical attention immediately.

Notes to physician
In case of shortness of breath, give oxygen. Keep victim warm. Keep victim under observation. Symptoms may be delayed.

General advice
Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance.

5. Fire Fighting Measures

Flammable properties
Flammable liquid and vapor. Heat may cause the containers to explode.

Extinguishing media

Suitable extinguishing media

Unsuitable extinguishing media
Do not use a solid water stream as it may scatter and spread fire.

Protection of firefighters

Specific hazards arising from the chemical
Vapors may form explosive mixtures with air.

Protective equipment and precautions for firefighters
Wear full protective clothing, including helmet, self-contained positive pressure or pressure demand breathing apparatus, protective clothing and face mask.

Fire fighting equipment/instructions
Cool containers exposed to heat with water spray and remove container, if no risk is involved.

Specific methods
In the event of fire and/or explosion do not breathe fumes.

Hazardous combustion products

6. Accidental Release Measures

Personal precautions
Keep unnecessary personnel away. Local authorities should be advised if significant spillages cannot be contained. Keep upwind. Keep out of low areas. Ventilate closed spaces before entering them. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. See Section 8 of the MSDS for Personal Protective Equipment.

Environmental precautions
Prevent further leakage or spillage if safe to do so. Do not contaminate water.

Methods for containment
ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). Stop leak if you can do so without risk. Dike the spilled material, where this is possible. Prevent entry into waterways, sewers, basements or confined areas.

Methods for cleaning up
Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. This material and its container must be disposed of as hazardous waste. Should not be released into the environment.

Large Spills: Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Prevent product from entering drains. Do not allow material to contaminate ground water system.

Other information
Clean up in accordance with all applicable regulations.

7. Handling and Storage

Handling
Wear personal protective equipment. Avoid breathing mist or vapor. Do not get in eyes, on skin, on clothing. Avoid prolonged exposure. Wash thoroughly after handling. DO NOT handle, store or open near an open flame, sources of heat or sources of ignition. Protect material from direct sunlight. All equipment used when handling the product must be grounded. When using, do not eat, drink or smoke. Avoid release to the environment.
Storage

Keep away from heat, sparks and open flame. Keep containers tightly closed in a cool, well-ventilated place. Keep away from food, drink and animal feedingstuffs. Keep out of the reach of children.

Engineering controls
Use explosion-proof ventilation equipment. Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits.

Personal protective equipment

- **Eye / face protection**
  Wear approved chemical safety goggles.

- **Skin protection**
  Wear chemical-resistant gloves, footwear and protective clothing appropriate for risk of exposure. Contact glove manufacturer for specific information.

- **Respiratory protection**
  In case of insufficient ventilation, wear suitable respiratory equipment. If permissible levels are exceeded use NIOSH mechanical filter / organic vapor cartridge or an air-supplied respirator.

- **General hygiene considerations**
  Provide eyewash station and safety shower. When using, do not eat, drink or smoke. Wash hands before breaks and immediately after handling the product. Contaminated work clothing should not be allowed out of the workplace. Handle in accordance with good industrial hygiene and safety practice.

9. Physical & Chemical Properties

- **Appearance**
  White liquid.

- **Physical state**
  Liquid.

- **Form**
  Liquid.

- **Color**
  White.

- **Odor**
  Pine. Slight odor.

- **Odor threshold**
  Not available.

- **pH**
  Not available.

- **Vapor pressure**
  Not available.

- **Vapor density**
  < 4.5

- **Boiling point**
  300.2 - 572 °F (149 - 300 °C)

- **Melting point/Freezing point**
  Not available.

- **Solubility (water)**
  Partially soluble in water.

- **Specific gravity**
  1.23

- **Flash point**
  134.6 °F (57 °C)

- **Flammability limits in air, upper, % by volume**
  Not available.

- **Flammability limits in air, lower, % by volume**
  Not available.

- **Auto-ignition temperature**
  Not available.

- **VOC**
  22.3 %

- **Evaporation rate**
  < 1 (n-Butyl Acetate = 1)
Percent volatile 20 - 25 %

10. Chemical Stability & Reactivity Information

Chemical stability Stable at normal conditions.
Conditions to avoid Heat, flames and sparks.
Hazardous decomposition products Nitrogen oxides (NOx). Silicon oxides.
Possibility of hazardous reactions Hazardous polymerization does not occur.

Ecotoxicity: Contains a substance which causes risk of hazardous effects to the environment.
Environmental effects: An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.
Aquatic toxicity: Toxic to aquatic organisms. May cause long-term adverse effects in the aquatic environment.
Persistence and degradability: Not available.
Bioaccumulation / Accumulation: Not available.

Partition coefficient: Monoethanolamine (CAS 141-43-5) -1.31

13. Disposal Considerations

Waste codes: D001: Waste Flammable material with a flash point <140 °F

Disposal instructions: Dispose in accordance with all applicable regulations. Must be incinerated in a suitable incineration plant holding a permit delivered by the competent authorities. This material and its container must be disposed of as hazardous waste. Do not allow this material to drain into sewers/water supplies.

14. Transport Information

DOT

Basic shipping requirements:
- UN number: UN1268
- Proper shipping name: Petroleum products, n.o.s. (Distillates (petroleum), hydrotreated light)
- Hazard class: 3
- Packing group: III
- Environmental hazards: Marine pollutant: yes

IATA

UN number: UN1268
- UN proper shipping name: Petroleum products, n.o.s. (Distillates (petroleum), hydrotreated light)
- Transport hazard class(es): 3
- Packing group: III
- Environmental hazards: yes
- ERG code: 3L

IMDG

UN number: UN1268
